

K-LOVE provides me spiritual guidance all day long, while I make my 60 miles/day commute and while I am at work via the internet. I would not be as productive or happy a person without K-LOVE.

K-LOVE provides spiritual inspiration to many in my community. We discuss the various songs and spiritual guidances provided by those on this FM broadcast.

K-LOVE offers an opportunity for young children, as well as those adults growing, the ability to connect with GOD and become spiritually inclined. Without K-LOVE broadcasts many in my community would become lost souls and suffer from inadequacies and a lack that should not be prevalent in the United States of America.

Please do not let K-LOVE be replaced by traditional radio broadcast that do not offer an opportunity for our young (and young at heart) citizens to grow. Thank you.
